

U. S. NAVAL AIR STATION  
DAYTONA BEACH, FLORIDA

June 20, 1947

Dear Folks,

There isn't much to say about things here except that it didn't take long to get back <sup>into</sup> the swing of things. I'm the assistant instructor of a group already several days on ~~the~~<sup>its</sup> way - a nice bunch of lads, mostly from Cape Christ.

Summer has obviously been here for some time. So far I guess the temperature has got <sup>into</sup> the nineties most every day, but the birds are still singing.

Everything seemed pretty well

Nov. and the time of year made it most nice in that big report. Thank for every thing. When can't change home, must accept to make it more appropriate than before. Love to all. Total

at Great Neck, in fact very well - once I got there (missed two trains out because of poor baggage strategy). The trip down was uneventful. There are no more pretty stewardesses. Rough air between Philadelphia and Wash. made me feel very ~~cool~~ uncomfortable. I had to take a bus from Tax. and was 20 minutes late - no harm!

Yes, that was a mighty nice leave and, I still feel reasonably sure, a lucky one. As usual I wish I had been able to do more, that is without being constantly on the go, which would have been impossible. Certainly it was an enjoyable. The things being equal, or least

to you! - to you! - P.S. Day of My tomorrow -
